Docket No.: 522272000121

AMENDMENTS TO THE SPECIFICATION

Please amend paragraph [0032] of page 12 as follows:

[0032] The present invention has been described above in terms of certain preferred embodiments so that an understanding of the present invention can be conveyed. However, there are many alternative arrangements for dynamic re-sequencing not specifically described herein, but with which the present invention is applicable. Although specific features have been provided, dynamic re-sequencing in the present invention would equally be embodied by other configurations not specifically recited herein. The scope of the present invention should therefore not be limited by the embodiments illustrated, but rather it should be understood that the present invention has wide applicability with respect to ~~catheter systems~~ dynamic re-sequencing generally. All modifications, variations, or equivalent elements and implementations that are within the scope of the appended claims should therefore be considered within the scope of the invention.
